Experience

BlackBerry   Waterloo, Ontario
Web Developer   02/2014 - 03/2015

BlackBerry is a technology company based in Waterloo, Ontario, Canada.
It was formerly known as Research In Motion URIM3 until rebranding as BlackBerry Ltd in 2013.

- I was responsible for building and maintaining the user-facing components of the platform using technologies like React, Redux, HTML, CSS, and JavaScript.
- I played a key role in the redesign of the content management system, which involved collaborating with UX designers and backend developers to create a seamless user experience.

RBC   Toronto, Ontario
Frontend Developer   09/2015 - 09/2018

RBC is the largest bank in Canada, with headquarters in Toronto, Ontario.
It offers a range of financial services including personal and commercial banking, wealth management, insurance, corporate and investment banking.
RBC is also the largest company in Canada by market capitalization.

- I modernized the innovative e-commerce platform by leading the frontend development team as a principle developer.
- I worked on redesigning Rocketium's design editor build with React.js and Typescript to make the user experience smooth and more usable.
- I led the development of complex web applications using a range of frontend technologies such as React, Angular, and Vue.js.

Shopify   Ottawa, Ontario
Senior Frontend Developer   10/2018 - 02/2023

Shopify is a Canadian e-commerce company based in Ottawa, Ontario, that provides a platform for businesses to create online stores and websites.

- I have experience implementing healthcare and e-commerce platforms, integrating push notifications, location services, Google Maps, and Firebase Analytics.
- I have experience implementing social media integrations for platforms such as Facebook, Twitter, and Apple.
- I integrated payment methods such as Stripe, PayPal, Braintree, and Hyperwallet.

Education

University of Toronto
Computer Engineering   09/2009 - 01/2014
